What The Clip! Echo Evaluation & Guidance for MitraClip
October 20th, 2018

Bethesda Memorial Hospital, 2815 South Seacrest Blvd., Boynton Beach, FL 33435

We are excited to invite you to join us as a sponsor or exhibitor at our Echocardiography Symposium, Saturday, October 20th, 2018, at Bethesda Memorial Hospital.

The symposium is being offered free to the ultrasound community in recognition of ultrasound awareness month. Network one-on-one with 50 sonographers and physicians when you participate at this CEU event presented by CardioServ and sponsored by Bethesda Memorial Hospital.

Facebook Livestreaming!

We are pleased to announce that we will also be live-streaming the event on Facebook! Join the excitement and participate in our live stream! We will allow Premium Exhibitors to briefly address our live stream audience!

The majority of our conference attendees will be from the South Florida area with our live stream audience reaching both national and international physicians and sonographers.

Overview and Featured Topics:

We will take our audience on a journey that begins with the identification of mitral regurgitation using echocardiography. Attendees will learn different ways to quantify MR severity based on the recent ASE guidelines and standards. A detailed explanation of the TEE views needed during a MitraClip TEE screening will be provided. We will even have the audience participate in our mock valve clinic meeting to identify MitraClip candidates! Attendees will learn the role of echocardiography guidance during the MitraClip procedure.

Break-out sessions

Hands-on quantification skills

Join us in October at our Echo Symposium!

Thank you for your consideration,
